Rick Anthony
Recreation & Parks Director
Greetings!

As winter loosens its final grip on the season, we happily anticipate warmer weather and look forward to becoming more active again. We are excited to show off all the hard work we have done over this last year! You will see many of our most visited parks with new playgrounds, sports courts, or other park improvements for you to enjoy. We are equally excited that along with these new improvements, we have also made a significant investment in protecting them. The Rangers have been on patrol for over a year now and are making a huge impact on keeping our parks safe, clean, and secure! It gives me great pride to ride by certain parks and see children playing again. As we continue to make progress to improve the quality of life for all our residents,

I would invite you to become more active and participate in the many opportunities available to you in your Recreation and Parks Department. Whether it is an organized activity like pickleball or basketball, or just a walk or swim, there is no better time to visit our parks or sign up for one of our programs. Remember this, here at Recreation and Parks we: *"HAVE FUN AND GET STUFF DONE."*

Our Mission:

Recreation and Parks enhances the quality of life through a variety of programs, parks, and partnerships.

PARK RANGER PROGRAM

With the addition of the Park Ranger program in November 2022, the City now maintains a presence in the parks 7 days a week. The Park Rangers patrol the parks in all seven City Wards as well as the Kern River trail. These patrols run from 6am to 12am and have helped to significantly reduce vandalism and illegal activities in the parks.

The Park Rangers are the primary response team to all issues and disturbances in all Recreation & Parks Department facilities. The efforts of the Park Rangers has relieved all work in the parks from Code Enforcement and helped to reduce calls for service from the Bakersfield Police Department. The Park Rangers are serving not only as deterrents to unwanted behavior, but also serve as park ambassadors to promote enjoyable parks visits and proper utilization of park amenities by the public.

In an effort to progress in effectiveness and availability, the Park Ranger program has introduced a new hotline (661) 852-PARK (7275) and email parkranger@bakersfieldcity.us. These new contacts are a demonstration of the program's growth and commitment to ensuring the safety of the public and park patrons.

PUBLIC SAFETY & VITAL SERVICES MEASURE (PSVS)

The Bakersfield Public Safety and Vital City Services Measure was placed on the ballot to maintain and enhance vital city services. This was done after gathering community feedback about their priorities for vital services in the City, including over 30 community-based meetings and receiving input from over 1,000 residents. The ballot measure contains 13 specific priorities that will be addressed through future implementation plans. A few of those priorities specific to Recreation and Parks include:

- Keeping public areas safe and clean
- Reducing homelessness through partnerships with service providers to increase outreach, sheltering, and construction of affordable housing
- Enhancing amenities throughout the community to improve the quality of life and attract visitors
- Enhancing neighborhoods through additional code enforcement and improved park maintenance
