Gregory St. Louis, PE  
Superintendent

### 2023 Road Moratorium Streets

Roads paved within the past five years shall be subject to a street opening moratorium, except in emergency conditions as determined by the Superintendent of Public Works. In such circumstances, the DPW may require that the permanent patch be treated by a process (i.e. infra-red, microwave, or curb-to-curb or other extensive restoration) that will ensure that the patch is integrated into the existing bituminous surface in a seamless manner. The DPW will consider petitions to waive the five-year moratorium on a case-by-case basis.

Note: Work of a linear nature performed on other streets with a [pavement conditions index recommendation](#) of deferred maintenance or preventative maintenance shall require curb to curb pavement restoration. Other work that, by nature of the equipment to be used and work to be performed, will significantly alter the pavement condition index of a street or portion of a street may be required to perform additional restoration to preserve the existing street pavement condition at the discretion of the Superintendent of Public Works.

Street	From	To	Year Completed	Moratorium End Date
Alden Rd.	Belmont St.	End	2021	2027
Arden Rd.	Oakley Rd.	End	2018	2024
